

Brock Hughes Medical Center Medication Assistance Program

**CAN'T
AFFORD**
your medications?
WE CAN HELP.

Who Qualifies?

- Residents of Virginia, with or without insurance, qualify for services, including those with Medicare Part D.
- You do not have to be a patient at Brock Hughes Medical Center to get assistance.
- Our Medication Assistance Caseworker (MAC) will use the software program The Pharmacy Connection (TPC) to see if your medications are available from the manufacturer, and what the guidelines are for that drug company. Each drug manufacturer has their own set of income guidelines and other eligibility criteria.

Give us a call today to see if you are eligible.
